K I R K W O O D
S C H O O L D I S T R I C T

The Kirkwood School District uses scoring guides to describe three levels of student performance based on the approved curriculum. These guides are designed to provide specific and understandable feedback about student progress in line with the Kirkwood curricular standards and expectations. Each learning standard on the quarterly report card is named in the scoring guides, and they also explain the differences in performance levels.

The report card explains student performance using the following indicators:

- 3–Meeting: The student consistently meets the standard
- 2–Approaching: The student is sometimes able to meet the standard
- 1–Beginning: The student is not yet meeting the expectations of the standard independently

The expected performance for all students is a "3," which signifies that they are meeting the standard. However, it is important to recognize that all students learn at their own pace. Students that are not yet meeting expectations continue to have learning opportunities throughout the school year.

We want to ensure a partnership by clearly communicating each child's academic journey. If you have any questions or need further explanations, don't hesitate to reach out to your child's teacher or principal. Your partnership in supporting your child's learning is truly appreciated.
